## Introduction

The Website of Election Commission of India was launched on 28<sup>th</sup> of February, 1998, just two days prior to start of Counting for General Elections to 12<sup>th</sup> Lok Sabha. This was done as a part of the comprehensive plan for intensive and extensive use of Information Technology in Electoral Management and Administration initiated by the Commission in 1997.

The Website is a Comprehensive Resource Centre for Indian elections. The Website of the Election Commission of India reflects the Commission's broad vision of moving into the Internet way of computing for all activities connected with elections and major electoral events. To that extent, the Website is an integral part of the overall management strategy of the Commission.

**General Election System (GENESYS)** is the software used for capturing data from the CEO offices and district centers all over India during Elections.

# Steps to change Password on First Login

- Users have to register their Mobile no.
- CEO level user's Mobile No can be registered by ECIADMIN, require to send request on [genesys@eci.gov.in](mailto:genesys@eci.gov.in) email Id with Mobile No. **(Kindly use official email id only for any request)**
